

## Webinar Invitation

Swedish Chamber of Commerce in Slovakia in cooperation with a member company Prosmán a Pavlovič a.k. s.r.o. invite you to a webinar on topic:

### Introduction to Customs Regulations in Logistics

The aim of the webinar is to inform audiences about the issue of customs regulations consisting of Union regulations, of the Customs Act and its implementing decree. The uniform legal framework for the entire Union is determined mainly by the Union Customs Code, by the Implementing Regulation and the Delegated Regulations, which must be applied in the conditions of the Slovak Republic also in connection with the Customs Act. Knowledge of customs regulations can help to improve the time and financial efficiency of both import and export of goods in logistics and at the same time to prevent any damage that could occur due to their incorrect application.

#### Agenda:

- Customs
- Customs status of goods
- Declarant and his or her representative
- Customs declaration
- Division of the customs procedures, Customs simplifications
- Customs supervisions, Customs proceedings
- Import charges
- Common Customs Tariff
